Disappointing 1 2 3 4 5 6 7 8 9 Exceptional

Any other comments?

Thinking of 2019:

Are you likely to attend the 2019 Conference in Edinburgh: Yes/No.

If not, why not:

What subjects/projects would you like to see included in next year's conference or in future events?

Would you like to see the same balance of formal presentations and interactive sessions as this year: Yes/No. If not, how would you change it?

Would you be interested in project visits on the evening before the conference in Edinburgh: Yes/No

Other HEDQF Events:

Are you likely to attend any other HEDQF Events: Yes/No.

Would you like to organize or host a future HEDQF Event: Yes/No. If yes what would be the subject/project?

Any other comments or suggestions?
